

9.EXHIBITION OF MEASUREMENTS SYSTEM AND OPERATIONS IN ELECTRONICS

IEEE SB CEK organized an exhibition under PELS/NPSS jt SBC on "Electronics equipment and generation trends of electronics" which opens a wide range collection of equipment of both College and SB. This exhibition shows different types of electronics equipment like DSO, CRO, etc. whose use starts from lab to industry, which is useful for students to understand it's uses etc. General trend of electronics are now microcontroller our exhibition has included a wide range of microcontroller (Arduino mainly) and mini project using them which increases curiosity. One of fabulous thing in exhibition was "Virtual Reality room ".This exhibition was stage were students can see what they studied in class room. Feedback was excellent from student.
