

24. KNOW POWER ELECTRONICS

NPSS PELS Jt. chapter of IEEE Student Branch College Of Engineering Karunagappally organized a remedial class for students to understand the concepts of power electronics. The session was scheduled on weekends for a month. Experts from the field showed up to hand out their expertise. To add a little interesting element we arranged gaming section which included puzzles, quizzes at the end of the classes. The theme for the games were given in advance so that they could dig up everything they could for the topic. The students were competitive, enthusiastic, curious ones which made the event a great success. Their competitiveness was put to use to make them learn, understand POWER ELECTRONICS. As to encourage them prizes were distributed among the firsts.
