

11. IEEE PELS DAY CELEBRATION

On behalf of **PELS** day celebration **IEEE SB CEK** organized series of workshops and class. One of beautiful section was “**PELS CRAFT**”, this section based on the *modeling, prototyping, of new products based on electronics* etc. This section was handled by Cliffin Cletus vice chair of NPSS/PELS jt chapter. This was mainly for first years, main agenda of this section was improving technical skill, creativity, marketing skill etc.

Section was held at June 22 and its starts on 2:00 PM. **PELS CRAFT** starts with an fabulous speech by SB Chairman, later students are separated into several teams and each team is supplied a chart paper sketches etc. we give almost one and half hour for students to sort out an idea and make a prototype/model and they were mentored by volunteers. After the given time each team were requested to present their idea and market it. They are judged by SB chair, vice chairs mentor etc. The idea presenting section was an interactive section. After this judge find winner and they were supplied with PELS Day goodies Feedback from students were excellent.
